

9 March 2016

To whom it may concern

Reference: IWTS Ltd.

Carpenter Ltd is a top tier Control of Major Accident Hazard (COMAH) site. This means that the Health and Safety Executive and Environmental Agency conduct regular inspections of our operation based on their intervention plans.

I confirm that Carpenter Ltd have dealt with IWTS Ltd for over 12 months, during which time they have provided our company with various training courses including snatch rescue, confined space, self-contained breathing apparatus and airline breathing apparatus, which have always been extremely well organised and professionally presented.

Their management team have been extremely helpful during discussions on safety projects, and have demonstrated their vast experience and expertise in implementing and improving safety standards within our company.

I have therefore no hesitation in recommending this company for training and consultancy projects.

If you require any additional information please feel free to contact me at david.nield@carpenter.com.

. Yours faithfully

CARPENTER LTD

David G Nield
