

**Pet Food Partners**  
Our Expertise. Your Success

**IWTS Testimonial**

IWTS recently provided our company with a number of Confined Space Entry Novice courses and a refresher course. Our staff found the course very informative, enjoyable and relevant.

IWTS came to our site to look at the variety of confined spaces we had and tailored the course to meet our own requirement. The trainers were very competent and personable and worked well with all our staff to ensure that everyone gained from the sessions.

The whole package was well delivered from start to finish and we will certainly use them again for future training requirements.
